

Float in the Beauty of Zero-Gravity Relaxation

At first glance, the Human Touch® ZeroG® Volito is stunning in its simplicity. Our revolutionary open frame design creates an inviting seating experience that is both elegant and functional, creating the ideal marriage between beauty and performance. Volito is the Latin word for “hover,” which describes the weightless sensation you feel as you float in the physician recommended, neutral posture position.

More than your everyday sitting chair, the Volito combines luxurious upholstery, deep-tissue massage, and a modern design that enhances any living space while providing ultimate relaxation with remarkable value.
